

New Century Shower Filter

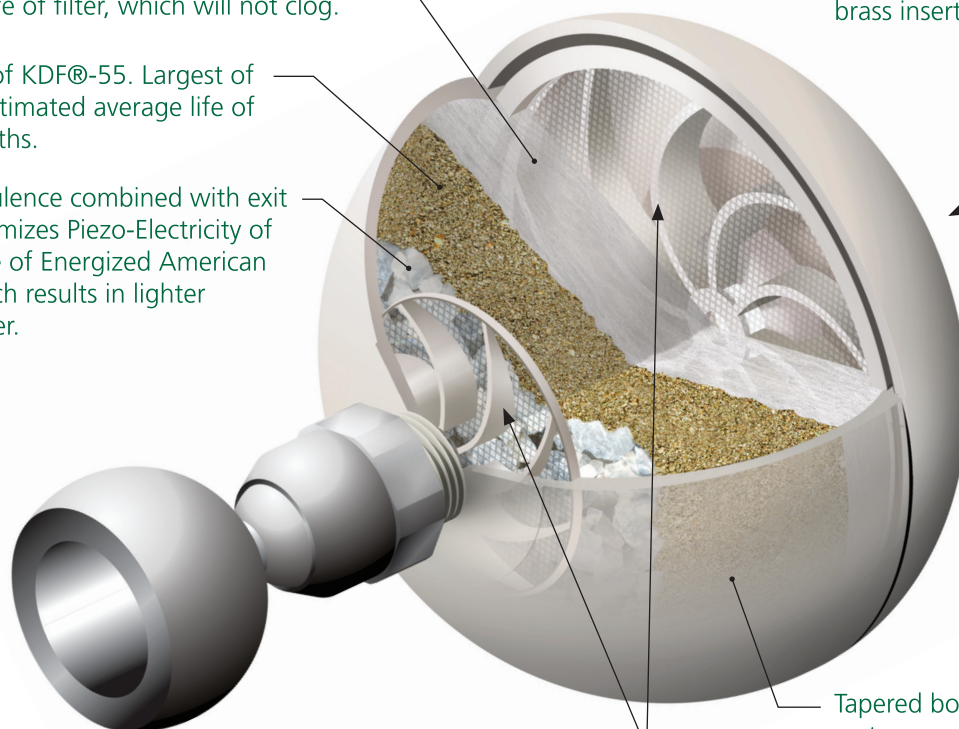

Improve your shower experience today... with Rainshow'r.

The Rainshow'r dechlorinating shower filter removes 90% or more of free chlorine for a healthier shower. Your skin feels better and looks younger; hair becomes more manageable. Even color-treated hair shows reduced fading and discoloration.

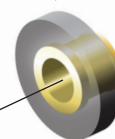

9.5 cubic inch polyester sediment prefilter to extend life of filter, which will not clog.

18 ounces of KDF®-55. Largest of all filters. Estimated average life of 15–18 months.

Water turbulence combined with exit vortex maximizes Piezo-Electricity of the 1 ounce of Energized American Crystal which results in lighter feeling water.

Rainshow'r's own leak-free Wonder Washer cannot be drawn into the shower arm because of the stabilizing brass insert.

Body designed with water turbulating vortex at inlet and outlet.

Tapered body maximizes water pressure. Combined with the dual vortex increases dechlorination action through better water turbulence.

The New Century shower filter has been given WQA Gold seal and is NSF/ANSI #177 certified to 30,000 gallons.
